

**PROVOST'S RESEARCH AWARD
(JUNIOR FACULTY)
The University of Oklahoma Health Sciences Center**

The Provost's Research Award was established in the late 1980's to recognize meritorious research. Two awards within both a basic science and a clinical science/translational category (based upon National Institutes of Health designations) may be given each year to fulltime, regular faculty members: one in each category for junior faculty (assistant professors); and one in each category for senior faculty (associate and full professors).
