The Regents’ Award for Superior Teaching was established on June 6, 1963 with the first awards presentation in the spring of 1964. Originally, the award was given to three individuals each year. In 1965, the policy was amended to provide a maximum of five and a minimum of three awards each year. In 1978, the awards were expanded to include superior accomplishment in any of the following: Teaching, Research and Creative Activity, Professional and University Service, with a maximum of nine awards in one year with the understanding the majority of the awards will be given for superior teaching.
